2009 Multiple Version Questionnaire Data Sets

<u>Print</u>

Limited support is provided for a multiple questionnaire data collection format. The multiple questionnaire design consists of up to three questionnaires asked each month of the survey year. The core instrument must be asked without any changes in all versions of the questionnaire. The optional modules and state-added questions can be asked on either one or all versions, but must be asked throughout all twelve months of the survey. Three additional weights are provided for use with variables resulting from questions asked only on one of the three versions of the questionnaire.

To reduce confusion about which weight to use with which variable, three additional data sets are available for 2009. These data sets contain the data from the states which conducted multiple questionnaires and used optional modules in 2009. For more information, please refer to the documentation below.

About the Multiple Version Questionnaire

Use of BRFSS Multiple Version Questionnaire Data <a>[PDF – 98 KB]

Please read this document before performing any data analyses. This document contains a list of states that used the multiple questionnaire and which modules they used.

Version 1 Data

2009 BRFSS Multiple Version Questionnaire Version 1 Data (ASCII) [ZIP – 11 MB] Data updated October 26, 2010

2009 BRFSS Multiple Version Questionnaire Version 1 Data (SAS Transport Format) [] [ZIP – 22 MB] Data updated October 26, 2010

2009 Variable Layout for Version 1 Data Format information on variable name by column position.

MULTIOUT09V1.sas file for Version 1 Data [SAS – 38 <u>KB]</u> SAS for Windows program to convert the ASCII file into a SAS dataset.

Version 2 Data

2009 BRFSS Multiple Version Questionnaire Version 2 Data (ASCII) [ZIP – 9 MB] Data updated October 26, 2010

2009 BRFSS Multiple Version Questionnaire Version 2 Data (SAS Transport Format) [ZIP – 8 MB] Data updated October 26, 2010

2009 Variable Layout for Version 2 Data Format information on variable name by column position.

MULTIOUT09V2.sas file for Version 2 Data [SAS – 38 <u>KB</u>] SAS for Windows program to convert the ASCII file into a SAS dataset.

Version 3 Data

2009 BRFSS Multiple Version Questionnaire Version 3

Data (ASCII) [ZIP – 2 MB]

Data updated June 20, 2011

2009 BRFSS Multiple Version Questionnaire Version 3 Data (SAS Transport Format) [ZIP – 4 MB] Data updated June 20, 2011

2009 Variable Layout for Version 3 Data

Format information on variable name by column position.

MULTIOUT09V3.sas file for Version 3 Data [SAS – 38 <u>KB</u>] SAS for Windows program to convert the ASCII file into a SAS dataset.
