

MEPS HC-144H: 2011 Home Health File

Release date: June 2013

This public use data file is one in a series of event-level public use data files drawn from the 2011 Medical Expenditure Panel Survey (MEPS) Household Component (HC). The Home Health File contains household-reported information on home health visits including the type of provider, type of services received, length of the visit, reason for the visit, expenditures, and sources of payment. Released as an ASCII file with SAS, SPSS, and STATA programming statements and in SAS transport format, this public use file provides information on home health care for a nationally representative sample of the civilian noninstitutionalized population of the United States and can be used to make estimates of the utilizations and expenditures associated with home health care during the 2011 calendar year. This file consists of 2011 data obtained in the 2011 portion of round 3 and rounds 4 and 5 for Panel 15, as well as rounds 1, 2, and the 2011 portion of round 3 for Panel 16 of the survey (i.e., the rounds for the MEPS panels covering calendar year 2011).
