

MEPS HC-239H: 2022 Home Health File

Release date: May 2024

This public use data file is one in a series of event-level public use data files drawn from the 2022 Medical Expenditure Panel Survey (MEPS) Household Component (HC). The Home Health File contains household-reported information on home health visits, including the type of provider, type of services received, length of the visit, reason for the visit, expenditures, and sources of payment. Released as an ASCII file with SAS, SPSS, STATA, and R programming statements, a SAS transport file, a SAS V9 file, a XLSX file, and a Stata file, the Home Health file provides information on home health care for a nationally representative sample of the civilian noninstitutionalized population of the United States and can be used to make estimates of the utilizations and expenditures associated with home health care during the 2022 calendar year. This file contains data collected in Rounds 7-9 of Panel 24, Rounds 3-5 of Panel 26, and Rounds 1-3 of Panel 27 of the Medical Expenditure Panel Survey (MEPS), corresponding to the rounds for the MEPS panels covering calendar year 2022. To append person-level information such as demographic or health insurance coverage to each event record, data from this file can be merged with the 2022 MEPS HC Full-Year Consolidated file using the person identifier, DUPERSID. For more details on loading MEPS PUFs into R, SAS, and Stata, please visit the [MEPS GitHub page](#).

Documentation	File type
Documentation	PDF (429 KB) / HTML
Codebook	PDF (167 KB) / HTML *
SAS Programming Statements	TXT (39 KB)
SPSS Programming Statements	TXT (12 KB)
STATA Programming Statements	TXT (16 KB)
R Programming Statements	TXT (8.4 KB)

Data	File type**
Data File, ASCII format	ZIP (102 KB)
Data File, SAS transport format	ZIP (139 KB)
Data File, SAS V9 format	ZIP (163 KB)
Data File, Stata format	ZIP (112 KB)
Data File, XLSX format	ZIP (750 KB)

Questionnaires — see [Survey Questionnaires](#)

*The PDF version of the codebook is recommended for printing; the HTML version is database driven and lets you navigate quickly to details on each variable.

**Right-click on the data file link, then select Save Target As or Save Link As to download the file.
