## MEPS HC-135F: 2010 Outpatient Visits File

**Release date:** July 2012

This public use file is one in a series of event-level public use files drawn from the 2010 Medical Expenditure Panel Survey (MEPS) Household Component (HC). Released as an ASCII file with SAS, SPSS, and STATA program statements and in SAS transport format, the Outpatient Visits File provides detailed information on outpatient visits.

Data are gathered from a nationally representative sample of the civilian, noninstitutionalized population of the United States and can be used to make estimates of outpatient utilizations and expenditures for calendar year 2010. Each record represents one, household-reported, outpatient visit reported during the 2010 portion of round 3 and rounds 4 and 5 for Panel 14, as well as rounds 1, 2 and the 2010 portion of round 3 for Panel 15 of the survey (i.e., the rounds for the MEPS panels covering calendar year 2010). The Outpatient Visits Public Use Data File contains characteristics associated with the outpatient visit such as the date of the visit, whether or not a doctor was seen, type of care received , type of services provided , expenditures, and sources of payment.

Documentation	File type
Documentation	<a href="#">PDF</a> (296 KB) / <a href="#">HTML</a>
Codebook	<a href="#">PDF</a> (115 KB) / <a href="#">HTML</a> *
SAS Programming Statements	<a href="#">TXT</a> (56 KB)
SPSS Programming Statements	<a href="#">TXT</a> (22 KB)
STATA Programming Statements	<a href="#">TXT</a> (26 KB)

Data	File type**
Data File, ASCII format	<a href="#">ZIP</a> (405 KB) / <a href="#">EXE</a> (441 KB)
Data File, SAS transport format	<a href="#">ZIP</a> (532 KB) / <a href="#">EXE</a> (521 KB)

## Questionnaires — see [Survey Questionnaires](#)

\*The PDF version of the codebook is recommended for printing; the HTML version is database driven and lets you navigate quickly to details on each variable.

\*\*Right-click on the data file link, then select Save Target As or Save Link As to download the file.
